Each Board member is entitled to information and access to documents within the overall provisions of the law.

The Board of Directors has ultimate responsibility for the management of the Group, in particular determining the key attributes of the company's activities, maintaining an appropriate balance between entrepreneurial objectives and financial resources, and promulgating such directives as this requires. The Board is also responsible for approving corporate strategy and specifying organisational structure, as well as defining the strategy and concept governing the internal control system

and for risk assessment and risk management activities. The Board also bears ultimate responsibility for personnel matters and determines the fundamental principles of the company's HR and salary policies. It is responsible for the appointment, dismissal and supervision of those persons charged with the management of the company, the Group and the individual divisions – in particular the CEO, CFO and divisional heads – and for defining their deputising arrangements and signatory powers. The Board also establishes the guidelines for financial and investment policy and approves medium-term planning, annual budgets and investment schedules.

The Board of Directors delegates the entire management of ongoing operations and representation of the company to Group Executive Management under the leadership of the CEO to the extent that the law or the company's Articles of Incorporation or bylaws do not stipulate otherwise. Group Executive Management has the authority to decide on matters relating to the business entrusted to it. Decisions on matters which are beyond the scope of regular business operations or which exceed the thresholds specified in the company's terms of reference (ToR) require approval by the Board of Directors.

In essence, this applies to:

- the commencement of new business activities or the cessation of existing ones.
- the execution of significant contracts relating to areas outside the scope of the Valora Group's normal business activities and the execution of consultancy contracts the costs of which (either aggregate or annual) exceed CHF 2 million.
- the issuance of marketable debt securities or the contracting of long-term borrowing in amounts in excess of CHF 30 million.
- the granting of loans to third parties in excess of CHF 10 million.
- carrying out investments covered by the investment plan for amounts of more than CHF 5 million or carrying out non-budgeted investments for amounts of more than CHF 2 million.
- the granting of sureties or guarantees for amounts in excess of CHF 10 million.
- the acquisition or disposal of equity participations.
- the purchase or sale of real estate properties for amounts in excess of CHF 5 million.
- the initiation or termination of legal disputes, including the agreement to court-ordered or out-of-court settlements for amounts in excess of CHF 2 million.

### 3.7 INFORMATION AND CONTROL INSTRUMENTS AVAILABLE TO THE BOARD OF DIRECTORS

The CEO keeps the Chairman of the Board informed about the business performance of the company and the Group. At Board meetings, the CEO informs the Board about the business performance of the company, the Group and the individual divisions and also reports on all major business events. The CEO notifies the Board immediately of any extraordinary events with substantial implications. In addition, the Management Information System provides the Board of Directors with the following information a regular basis: monthly sales figures and monthly divisional and Group reporting based on the budget approved by the Board compared with the current and prior-year figures, information regarding major business events, information on the shareholder structure and the extent to which resolutions approved by the General Meeting or the Board of Directors have been implemented.

The Chairman of the Board of Directors is provided with copies of the minutes of all Group Executive Management meetings.

Each member of the Board of Directors can request information from the management about the course of business and operations and, with the authorisation of the Chairman of the Board, on specific business transactions. Each member may also request that company books and files be made available for said member's inspection.

### 3.7.1 RISK MANAGEMENT

The Valora Group runs a risk-management system approved by the Board of Directors. The system defines a structured process by which the business risks are systematically managed. In this process, risks are identified, analyzed and evaluated concerning the likelihood of occurrence and magnitude. Based on such assessment risk-control measures are determined. Each member of management is responsible for the implementation of the risk-management measures in his area of responsibility. The Board of Directors, in particular the Audit Committee, is periodically informed about the major changes in risk assessment and about risk-management actions taken. The permanent observation and control of the risks is a management objective. For risks concerning accounting and financial reporting, a special assessment is carried out as part of the risk control process. The Valora internal control system for financial reporting defines in this regard control measures that reduce the related risks.

As part of this risk-management system the Board of Directors and Group Executive Management carry out a risk assessment once a year. The risk assessment is initiated and moderated by the Head of Internal Audit and carried out in collaboration with Group Executive Management and the Board.

The Valora Group adopts a dual approach using "Top-down" and "Bottom-up" assessments. In the "Bottom-up" assessment the catalogue of risks and the methodological parameters are defined, and structured interviews are conducted with the individual members of Group Executive Management and with key Valora employees by Internal Audit. The "Bottom-up" process with its individual interviews results in the aggregation of the individual assessments and the identification of the key risk. Its results are discussed with Group Executive Management. In the "Top-down" process a focused workshop moderated by the Head of Internal Audit is held with the Board of Directors. During this workshop the key risks are analyzed and identified. After such workshop the Head of Internal Audit combines the output of the "Bottom-up" and the "Top-down" assessment and consolidates the findings into a consolidated risk map showing the likelihood of occurrence and magnitude of each key risk. This consolidated risk map is discussed by the Board of Directors together with Group Executive Management. This discussion with respect to the key risks identified, analyzed and evaluated in both assessments (Bottom-up and Top-down) leads to an alignment with respect to the key risks which shall be addressed. Finally, the key findings and potential consequences for each of the key risks identified as well as the measures and mitigation actions which shall be adopted to effectively address them are documented in a risk report which is submitted to the Board of Directors for final approval.

### 3.7.2 INTERNAL AUDIT

Internal Audit supports the Board of Directors, the Audit Committee and Group Executive Management in carrying out their oversight and controlling duties. The internal audit function's activities encompass the entire Valora Group and all its subsidiaries in Switzerland and abroad. Internal Audit provides independent and objective audit and advisory services which are designed to generate added value and improve business processes. It supports the Valora Group in achieving its objectives by applying a systematic and targeted approach to evaluating the effectiveness and efficiency of risk management, internal controls, management and monitoring processes and helping to improve them. Internal Audit is independent. It assumes no managerial responsibilities and makes no management decisions. It reports functionally to the Audit Committee and administratively to the Chief Financial Officer of the Valora Group.

Every year, Internal Audit draws up a risk-based annual plan which it submits to the Audit Committee as the basis for determining the key areas of audit examination. The annual audit plan is coordinated with the external auditors. It is adopted by the Audit Committee and communicated to Group Executive Management. In addition, the Chairman of the Board, the Audit Committee or its Chairman can instruct Internal Audit to carry out special assignments. Internal Audit reports its planned audit activities to the Audit Committee and also prepares an annual report documenting its activities during the year.

Internal Audit prepares a written report at the end of each audit and assignment. In addition to its own audit findings and recommendations, this also contains a statement from the management setting out the measures planned and the time required for their implementation. Implementation of these measures is then verified by Internal Audit in a timely fashion. The Chairman of the Board, the members of the Audit Committee, the CEO, the CFO and the external auditors each receive a copy of these reports.

Internal Audit carried out 5 audits in 2021.

No more than one such mandate may be carried out for a listed legal entity. Mandates within the same corporate group and mandates closely linked to the same group (such as pension funds, joint ventures and significant participations) are considered as one mandate. All mandates require prior approval by the Board of Directors.

### 5 REMUNERATION, SHAREHOLDINGS AND LOANS

Full details of all remuneration, shareholdings and loans (content of remuneration and share programmes, process for determining remuneration under these programmes, general remuneration components and their weightings for members of the Board of Directors and Group Executive Management) are set out in the separate remuneration report on pages 117 to 145 and in the financial report in Note 35 "Transactions and balances outstanding with related parties" to the consolidated financial statements of the Valora Group (pages 162 to 226) and in Note 3.4 "Participations" to the financial statements of Valora Holding AG (page 238).

### 6 SHAREHOLDERS' PARTICIPATION RIGHTS

#### 6.1 VOTING RIGHT AND REPRESENTATION RESTRICTIONS

Each share entitles its holder to one vote at the General Meeting. Voting is limited to those individuals entered as shareholders with voting rights in the share register.

The Board of Directors may refuse acknowledgement and entry in the share register as a shareholder with voting rights to shareholders who fail to confirm expressly on request that they have acquired the shares in their own name and for their account. The Board of Directors may also delete – with retroactive effect to the date of original entry – the entry in the share register as a shareholder with voting rights of shareholders who, on subsequent inquiry, are found to have had the voting rights concerned registered by making a false declaration, and have them entered instead as shareholders without voting rights. Any such deletion must be communicated immediately to the shareholder concerned.

To enhance the tradability of Valora shares on the stock exchange, the Board of Directors may devise regulations or agreements which permit the fiduciary entry of registered shares with voting rights over and above the limits set out in this article for trustees who disclose the nature of their trusteeship (nominees, ADR banks). However, such trustees must be overseen by banking or financial market regulators or otherwise provide the necessary guarantees that they are acting on behalf of one or several persons who are not linked to each other in any way, and must be able to provide the names, addresses and shareholdings of the beneficial owners of the shares concerned.

A shareholder may be represented at a General Meeting only by their legal representative, by another shareholder attending the General Meeting whose name is entered in the share register or by the independent shareholders' representative. The Board of Directors will ensure that shareholders can also grant powers of attorney and issue instructions electronically to the independent shareholders' representative, who can determine the specific arrangements required for this.

Recognition of powers of attorney will be at the discretion of the Board members attending the General Meeting.

## 6.2 STATUTORY QUORUMS

Unless the law or the Articles of Incorporation stipulate otherwise, the General Meeting passes its resolutions and conducts its elections by a simple majority of the share votes cast, irrespective of the number of shareholders attending or the number of shares represented. Voting abstentions and invalid votes are considered as not submitted. In the event of a tied vote, the Chairman of the Board of Directors has the casting vote.

Under Article 13 of the Articles of Incorporation, the following resolutions require a majority of two thirds of the votes represented and an absolute majority of the nominal value of the shares represented:

- changing the purpose of the company;
- introducing shares with privileged voting rights;
- limiting or facilitating the transferability of registered shares;
- increases in authorised or conditional capital;

Such publication and letters of invitation must indicate the venue, date and time of the meeting, the items on the agenda and the wording of any motions proposed by the Board of Directors or by shareholders who have requested the convening of a General Meeting or the inclusion of an item on the meeting's agenda.

The notice of an Ordinary General Meeting must also indicate that the Annual Report and the Report of the Auditors will be available for inspection at the company's registered office at least 20 days in advance of the meeting, and that any shareholder will immediately be sent a copy of these documents on request. No resolution may be passed on any matters that are not announced in the way described above, except for a motion to convene an Extraordinary General Meeting or to conduct a special audit.

The Articles of Incorporation stipulate that the convening of a General Meeting may also be requested by one or more shareholders who together represent at least 10% of the company's share capital.

#### 6.4 ADDITIONAL AGENDA ITEMS

### **8.3 INFORMATION INSTRUMENTS AVAILABLE TO THE EXTERNAL AND INTERNAL AUDITORS**

The Board of Directors' Audit Committee defines the audit mandates of the statutory auditors and is responsible for ensuring appropriate controls are carried out.

Internal auditing was carried out by an external audit company in the reporting year. The external and internal auditors were invited to all Audit Committee meetings for specific agenda items, in particular to attend the discussions on auditing matters and any other matter relevant to their audit function, and to comment on their activities and answer questions. The Board of Directors' Audit Committee makes an annual assessment of the performance, fees and independence of the auditors, and supports the Board of Directors in the nomination of the auditor for the attention of the ordinary General Meeting. The assessment of the external auditors takes account of a number of important criteria including deadline discipline, reporting quality, provision of additional information, availability of designated contacts and cost effectiveness. The external auditors submit to the Audit Committee both their report on the financial statements for the year just ended and their audit plan for the current financial year. The internal auditors submit their audit plan for the current year to the Audit Committee and provide it with a separate report on each audit carried out.
